States in international law. Although states are not the only entities with international legal standing and are not the exclusive international actors, they are the primary subjects of international law and possess the greatest range of rights and obligations. Unlike states, which possess rights and obligations automatically, international organizations, individuals, and others derive their rights and duties in international law directly from particular instruments.

International law - States in international law | Britannica

mentioned earlier however, there is no obligation under international law for States to recognize an entity as a State, once it meets the factual criteria for statehood. At the same time however, it seems that a State cannot exercise its full legal rights under international law without recognition by other States.

in the matter. Although recognition is thus declaratory of an existing fact, such declaration, made in the impartial fulfillment of a legal duty, is constitutive, as between the recognizing State and the new community, of international rights and duties associated with full statehood.

THE YALE LAW JOURNAL

International human rights law lays down obligations which States are bound to respect. By becoming parties to international treaties, States assume obligations and duties under international law to respect, to protect and to fulfil human rights. The obligation to respect means that States must refrain from interfering with or curtailing the ...

OHCHR | International Law

The responsibility of states. The rights accorded to states under international law imply responsibilities. States are liable for breaches of their obligations, provided that the breach is attributable to the state itself. A state is responsible for direct violations of international law—e.g., the breach of a treaty or the violation of another state's territory.
