Seating arrangement: Seating arrangements in an auditorium seating layout (or assembly space) will either be identified as “multiple-aisle” or “continental.” These terms are commonly found in design standards manuals, building codes, and similar architectural reference documents. Each size is unique, with specific guidelines governing ...

Auditorium - Wikipedia

This is particularly applicable with the design of a large auditorium where, within the visual and aural limitations, the aim is to maximise the seating capacity. This implies a balance between sightlines, height of auditorium and seating capacity. Reducing the accumulative height of the lower level of seating allows more height for balconies.
