About the Zone Wiki The E30 Zone Wiki is your one-stop resource for all information on the E30, sourced from the E30 Zone. Inside the Wiki you will find all the technical information you need. No matter how complex or simple, whether it's changing an engine or changing a lightbulb, the Wiki is here to help you.

### E30 Zone Wiki

A range of gearboxes were used in the E30. The M42 engine mates up to the same gearbox used in M40 engines, but is not compatible with earlier M10 gearboxes due to the bolt pattern; you cannot physically fit an M10 gearbox to an M40/M42 engine.

### Drivetrain - E30 Zone Wiki

The head is interchangeable between E30 and E36 models, but shares no compatibility with other BMW engines such as the M42, due to that engine's use of a timing chain instead of a belt. All heads feature hydraulic tappets which reduce the maintenance of the engine.

### M40 - E30 Zone Wiki

The M42 16V DOHC engine was developed which produced 136BHP and was one of the most technologically advanced engine for its time and is also one of the most fuel economic E30's achieving around the 33MPG with mixed driving.

### 318iS - E30 Zone Wiki

On M40 and M42 engines the manifold has four branches, ending in a single outlet for the downpipe. The M21 diesel engine is derived from the M20, and its exhaust manifold is similar to that engine. However, it is designed for use with a turbo. ... About E30 Zone Wiki;

### Exhaust - E30 Zone Wiki

The 318iS coupé was released in 1989, using the new M42 engine. This is the most modern engine available in the E30 range, incorporating DOHC, the updated Bosch Motronic 1.3, hydraulic valve adjusters and coil-on-plug ignition. In some markets, the M42 engine was used in the 318i/318iC models, instead of the M40.

### BMW 3 Series (E30) - Wikipedia

The BMW M42 is a DOHC four-cylinder petrol engine which was produced from 1989-1996. It is BMW's first mass-production DOHC engine and was produced alongside the BMW M40 SOHC four-cylinder engine as the higher performance engine.. The M42 was replaced by the BMW M44, which was introduced in 1996.. Compared with the M40, the M42 features a DOHC valvetrain, a timing chain, hydraulic valve ...

### BMW M42 - Wikipedia

From E30 Zone Wiki. Jump to: navigation, search. There's no simpler swap from the possible choice of engines than the mighty M20. While the smallest version was 2.0 litres, its full-fat form is a 2.5 litre version, which is the only one worth having. ... M40 or M42. With the right base vehicle a weekend is enough to get everything bolted in and ...

The BMW M40 is an SOHC four-cylinder petrol engine which was produced from 1987-1994. It served as BMW's base model four-cylinder engine and was produced alongside the higher performance BMW M42 DOHC four-cylinder engine from 1989 onwards.. Compared with its M10 predecessor, the M40 uses a belt-driven camshaft, and hydraulic tappets. Like the M10, the M40 uses an iron block and an aluminium ...

### BMW M40 - Wikipedia

The M42 40 mm Self-Propelled Anti-Aircraft Gun, or "Duster," is an American armored light air-defense gun built for the United States Army from 1952 until December 1960, in service until 1988. Production of this vehicle was performed by the tank division of the General Motors Corporation.It used components from the M41 light tank and was constructed of all-welded steel.

### M42 Duster - Wikipedia

The M42 lens mount is a screw thread mounting standard for attaching lenses to 35 mm cameras, primarily single-lens reflex models. It is more accurately known as the M42 × 1 mm standard, which means that it is a metric screw thread of 42 mm diameter and 1 mm thread pitch. (The M42 lens mount should not be confused with the T-mount, which shares the 42mm throat diameter, but differs by having ...

### M42 lens mount - Wikipedia

The M42 motorway runs north east from Bromsgrove in Worcestershire to just south west of Ashby-de-la-Zouch in Leicestershire, passing Redditch, Solihull, the National Exhibition Centre (NEC) and Tamworth on the way, serving the east of the Birmingham metropolitan area.The section between the M40 and junction 4 of the M6 forms – though unsigned as such – a part of Euroroute E05.
